Subject: Microsoft Settlement

Attention Renata B. Hesse Antitrust Division U.S. Department of Justice

The proposed settlement does little to nothing to end Microsoft's growing domination of in the computer industry and, more importantly, much more importantly, the Internet. Microsoft continues to leverage their dominance of the Windows OS in areas that that will jepordize not only fair competition but ultimately the freedom of information in general. Somone must ensure that the proposed settlement is scrapped or modified in a way that not only provides justice, but protects our freedom.

Thank You and Regards

Rick Kennett
